Education

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech	Indian Institute of Technology Indore	6.2	2023-Present
Senior Secondary	Telangana State Board of Intermediate Education	97.2%	2023
Secondary	CBSE	84.8%	2021

Projects

- **CloudPilot** *Aug. 2026 – Sep. 2026*
  AI-Powered Cloud Deployment & Observability Platform GitHub
  - Developed an AI-powered deployment platform using Next.js, MySQL, Redis, and Docker to analyze repositories and assess deployment readiness.
  - Built repository analysis to detect languages, frameworks, dependencies, monorepos, entry points and environment variables.
  - Implemented Docker-based deployments with generated Dockerfiles, container management, health checks, searchable logs, and failure detection.
  - Integrated GitHub OAuth, AES-256-GCM encryption, webhooks, and AI-assisted failure diagnosis for secure deployment management.

- **Lost and Found Management System** *Jun. 2025 – Aug. 2025*
  Full-Stack Web Application – IITISoC Project GitHub | Live
  - Developed a full-stack application using React, Node.js, Express.js, and MongoDB to report, search, and manage lost and found items.
  - Built responsive interfaces for item submission, browsing, searching, and filtering records.
  - Designed and integrated RESTful APIs for client-server communication and item data management.
  - Integrated Firebase authentication, Cloudinary image uploads, and Nodemailer email notifications for secure access and item management.

- **Indian-Context-Aware Multilingual Web Retrieval** *Aug. 2026 – Present*
  Multilingual Document Processing & Web Retrieval GitHub
  - Developed a Python document processing pipeline using PyMuPDF, BeautifulSoup, OpenCV, and Tesseract OCR for webpages, PDFs, scans, and images.
  - Implemented adaptive routing to select direct text extraction or OCR based on document characteristics.
  - Built OCR preprocessing using thresholding, denoising, and image enhancement to improve extraction from scanned documents.
  - Implemented Unicode normalization, text cleanup, and script/language detection for English, Hindi, and Sanskrit content.

Technical Skills

- **Programming Languages**: C++, Python, JavaScript, SQL
- **Frontend Development**: HTML, CSS, React.js
- **Backend Development *** : Node.js, Express.js, REST APIs
- **Databases**: MySQL
- **Tools & Platforms *** : Git, GitHub, VS Code, Cloudinary, Docker, Netlify, Render
- **Core Computer Science**: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks

** Elementary proficiency*

Key Courses taken

- **Computer Science**: Computer Programming, Data Structures and Algorithms, Design and Analysis of Algorithms, Operating Systems, Computer Networks, Computational Intelligence, Parallel Computing
- **Mathematics**: Linear Algebra, Multivariate Calculus, Numerical Methods, Optimization Algorithms and Techniques, Probability and Statistics

Achievements

- : Solved 80+ SQL problems on LeetCode, strengthening SQL querying and problem-solving skills. [LeetCode]
